

CALL FOR MINI-SYMPOSIA

Participants interested in organizing mini-symposia are welcome to submit proposals. This may be done on the Congress website, inside the registration form, by setting the ‘Mini-symposia proposal’ status to YES (registration form may be updated anytime), or via e-mail by sending the proposal form to office2@pcm.cmm2019.edu.pl.

Registration lasts until December 31st, 2018.

Proposal form may be downloaded from the ‘Mini-symposia’ menu of the Congress [website](#). While sending emails, please use this title: ‘MINI-SIMPOSIUM PROPOSAL’.

Please, take into account the following:

1. Each mini-symposium should cover at least one session with a minimum of 6 presentations, each 15 minutes long. Mini-symposia organizers will have the possibility to propose/accept one introductory keynote speech, longer than other mini-symposium lectures.
2. Upon acceptance of the mini-symposium proposal (January, 2019), it will appear on the Congress web page to allow speakers to assign their abstracts to the selected mini-symposia.
3. The mini-symposia organizers will be responsible for the acceptance of submitted papers (the whole process of submission and review will be carried out electronically).
4. The mini-symposia organizers are expected to attend the conference and to chair their sessions (they may contribute to the mini-symposium as well).
5. The conference organizers reserve the right to merge mini-symposia, or to redirect preregistered abstracts to the other mini-symposia.
